

SUSTAINABILITY ENROLLMENT PROCESS

FBN's sustainability enrollment tool is designed to offer farmers an easy experience to enroll and sign sustainability contracts through the FBN app

This tool offers farmers:

- **Faster payment** by connecting their FBN account with their ADM account at time of enrollment
- **Faster enrollment** by making enrollment and contract signing one seamless experience

Steps to enroll:

1. Talk to farmer about program

- a. Same process as last year!
- b. If farmer is interested, send them a link via text/email or have them scan a QR code

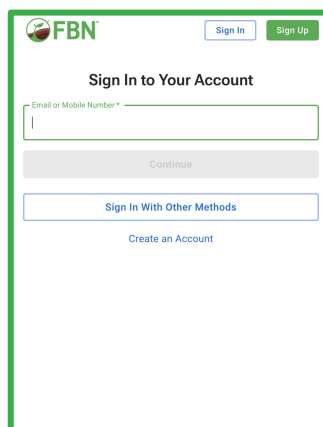

[Cover Crop Program](#)

[Wheat Program](#)

2. Link opens to page on FBN

- a. This page starts the process of logging into FBN.com.
- b. **Enter your mobile phone number**

The screenshot shows the FBN Sign In page. At the top, there is the FBN logo and two buttons: 'Sign In' and 'Sign Up'. Below the logo, the text 'Sign In to Your Account' is displayed. Underneath, there is a text input field labeled 'Email or Mobile Number *' with a single character 'I' entered. Below the input field is a 'Continue' button. Further down, there is a button labeled 'Sign In With Other Methods' and a link labeled 'Create an Account' at the bottom.

How *FBN* Sustainability Programs Work

What Data Do I Need to Share?

	PREFERRED DATA TYPE	BACKUP TYPE	SURVEY QUESTION
Fertilizer/Manure Data <ul style="list-style-type: none"> Fertilizer Type Fertilizer Timing Application Method 	Precision Application Files	Collected through survey	Fertilizer receipts may be required for verification
Planting Data <ul style="list-style-type: none"> Date Planted Seeding Rates 	Precision Planting Files	Collected through survey	
Crop Protection Data <ul style="list-style-type: none"> Product used Application Rate Application Timing Application Method 	Precision Application Files	Collected through survey	
Harvest Data <ul style="list-style-type: none"> Yield Data Moisture Data 	Precision Harvest Files	Collected through insurance reports	Scale tickets may be required for verification
Tillage Data <ul style="list-style-type: none"> Tillage Type Tillage Depth Tillage Timing 	Collected through survey		
Cover Crop Data <ul style="list-style-type: none"> Acres Planted Crops Planted Planting Timing Termination Type 	Precision Planting Files	Collected through survey	
Farm Energy Use <ul style="list-style-type: none"> Grain Drying Source Irrigation Type 	Collected through survey		Fuel receipts may be required for verification
